Key Achievements

Utilized modern technologies to help educate English learners of all ages.

Trained, managed and evaluated 20 teachers to create dynamic lesson plans, educational progress examinations and instructive lessons to children aged 5 to 13.

Created, edited and managed an English-language newspaper written by students and distributed throughout an entire elementary school for 3 years.

Led training and implementation of a co-teaching system that allowed for two teachers to teach properly planned material in-tandem for immersive English lessons in various subjects alongside Korean managerial counterpart.

Professional Experience
